

FOAM BUND

Flexible foam bunding that enables you to quickly build your own bunded area.

Compresses when driven over then rises back into shape. Suitable for low traffic areas.

Available in either 20mm or 40mm high.

Available in 2m lengths in either black or yellow. Corners also available.

CODE	DESCRIPTION	SIZE (mm)

49-F210	Ados F2 1L Glue with brush	Adheres up to 14 x 2m lengths

HEAVY DUTY RUBBER BUNDING - 30mm High

This is a very durable alternative to traditional foam/concrete bunding. Performs well in areas where there is constant vehicle movement including forklifts.

Yellow stripes provide extra visibility.

Supplied in sections of 1 metre and is normally installed using Concrete Screws and adhesive.

Can also be used for rumble strip.

CODE	DESCRIPTION	SIZE (mm)
49-HDBUND	Heavy Duty Rubber Bunding	1000(L) x 150(W) x 30(H)
49-BCA	Bondurox Super C Adhesive*	600gm tube
49-CF10	Fastener - Concrete Screw	M10 x 75 Screw

*3 fasteners per section. 1 tube adhere's 4 sections

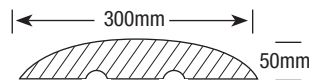

HEAVY DUTY RUBBER BUND - 50mm High

Ideal for use in high traffic areas where the bund is regularly crossed. Will not rip or wear out and has been proven to be a long lasting, effective and maintenance free bund.

Easily installed with adhesive and fasteners.

Excellent for use around fuel refilling sites, factory doorways and machine bunding.

- 1.83m Hi-vis sections
- Heavy Duty
- Interior or Exterior
- Handles forklifts and trucks without ripping

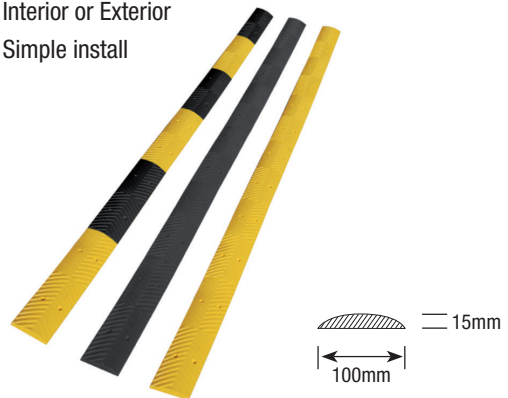

CODE	DESCRIPTION	SIZE (mm)
49-ESH	Economy Speed Hump Module	1830(W) x 300(L) x 50(H)
