

LowPro Safe Cover - 1500 x 1000mm.

Suggested Uses.

- Ideal for covering trenches/holes across driveways or areas that require vehicle access
- Support pedestrians & vehicles up to 3500kg

Benefits.

- A great alternative to heavy steel plates with a non-conductive composite construction
- Can be easily installed, transported and stored with only 2 people
- Flexi-Edges are moulded around the whole board, creating a safe passageway for pedestrians, wheelchairs and vehicles

Useful Tip.

Designed to be laid loose, but can be fixed in each corner for longer term applications

Specifications.

Code	49-SC1510
Description	LowPro Safe Cover - 1500 x 1000mm
Max Hole Span	Holes/trenches up to 900mm wide
Max Load	3500kg
Material	Composite Plate with Rubber Edge
Height	35mm
Width	1000mm
