

Traffic Separators & Delineators

Traffic Separator Pod

Traffic Separator Pods are manufactured from recycled rubber and can perform a wide variety of duties in traffic management.

They can be used to indicate lane separation, cycle lanes, parking bays, marking of traffic lanes in carpark entrances, exit ramps and many other applications.

Portable design allows these to be used for temporary use i.e. loose-laid, or bolted for more permanent situations.

Flexi Post - Orange or White

CODE	DESCRIPTION	SIZE (mm)
49-TSP	Traffic Separator Pod - Yellow	900(L) x 275(W) x 85(H)
49-TSPL	Flexi Panel	750(H) x 150(W)
49-TSP	Flexi Post (Orange or White)	900(H) x 70(D)

CityFlex Post

CityFlex Posts are completely flexible delineators, allowing them to take a hit and return to their original form. Inject some style and flair into your delineation at the same time as providing safety improvements.

- Highly flexible UV-resistant PU-injection technology
- Resistant material tested with 1,000 impacts @ 50km/h
- Made according to regulation UN 12899-3
- Flexible, prismatic and reflective tape
- Epoxy-fixed into the ground - option of permanent or temporary installation
- Stocked in Grey, White or Black, all with silver reflective tape. Other colours available on indent.

Made in Europe

CODE	DESCRIPTION	SIZE (mm)
49-CFP-B	CityFlex Post - Black	800(H) x 80(Dia)
49-CFP-G	CityFlex Post - Grey	800(H) x 80(Dia)
49-CFP-W	CityFlex Post - White	800(H) x 80(Dia)

Additional colours available on indent.

CityFlex Posts are an aesthetic choice compared to common flexi posts, and can withstand multiple impacts.
