

# Retractable Queuing Stanchions

## Retractable Queuing Stanchion, Chrome - 4m Belt

Our Premium Queuing Stanchions in chrome offer a professional look for your queuing needs. Link multiple stanchions together with the 3 or 4 metre belts to create a guided zone that improves productivity and operational efficiencies.

The auto-braking mechanism prevents the belt from retracting back too fast and causing injury to the user or damage to the stanchion.

- Height: 1000mm
- Base Diameter: 360mm
- Belt Length: 4m
- Weight: 10kg
