

Portable Belt Barrier

Skipper Posts are stable in strong weather due to their water or sand fillable base.

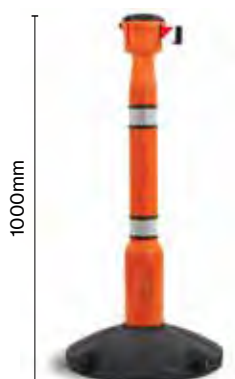

Skipper Post & Base System

Allows you to cordon off restricted areas quickly and cost-effectively. With its 9m long belt and 4-way connectivity, it only takes seconds to put into place.

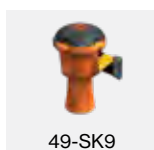

The Belt Top fits onto the water fillable Skipper Post and Base or it can be wall mounted.

- Water or sand fillable base for stability
- Reflective collars
- Height: 1000mm
- Belt Length: 9m
- Weight: 10kg when filled with water or sand
