

Energy Absorbing Bollards

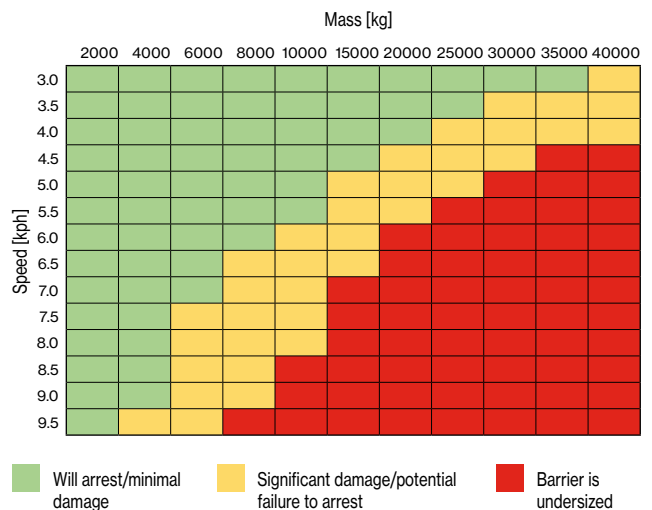

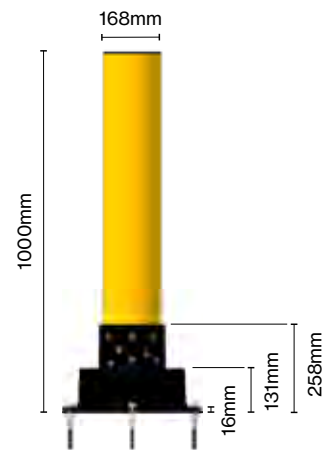

Slowstop® Bollard - 168mm Dia

Protect buildings, assets, vehicles, and pedestrians from damaging collisions. Ideal for heavy applications such as large trucks and heavy forklifts.

The strongest surface mount bollard available. For maximum protection in the most demanding applications.

This bollard stops 3 tonnes at 10.6km/h; all the way through to 35 tonnes at 3.1km/h without damage.

Stopping Power Rating: 25.800 joules | 147.3 kN.

Made in USA
