

Column Guard & Impact Strips

Rubber Corner Guard - Standard

Ideal for preventing damage to both vehicles and buildings, particularly in basement parking where space is often restricted.

- Suitable for indoor and outdoor use
- Comes in 800mm lengths

CODE	DESCRIPTION	SIZE (mm)
49-RCP-S	Rubber Corner Guard - Standard	800(L) x 100 x 100

Rubber Corner Guards protect property and vehicles from impact damage.

Rubber Corner Guard - Heavy Duty

Ideal for preventing damage to both vehicles and buildings, the heavy duty option provides superior protection with a thicker bumper.

- Suitable for indoor and outdoor use
- Comes in 800mm lengths

CODE	DESCRIPTION	SIZE (mm)
49-RCP-HD	Rubber Corner Guard - Heavy Duty	800(L) x 114 x 114

Heavy Duty Corner Guards for larger and heavier vehicles.

Safety Impact Strips

Safety Impact Strips are used to protect personnel from exposed edges and corners, and can be joined together to form your desired length. Made from soft polyurethane, the strips are available in 5 different profiles.

- High-visibility black/yellow
- Self-adhesive backing to allow for easy installation
- Strips are 1000mm long

Hi-vis black and yellow stripes make Safety Impact Strips easily identifiable for vehicles and pedestrians.

CODE	DESCRIPTION
46-PSSC	Small Square Corner Protection
46-PEP	Edge Protection
46-PSRC	Small Round Corner Protection
46-PRS	Round Surface Protection
46-PFS	Flat Surface Protection
