

Hose Ramps & Bridges

Rubber Hose Ramps

Rubber Hose Ramps protect large diameter hoses and cables up to 150(Dia)mm from vehicle damage and abuse. Non-conductive rubber construction. Simply clip each section together with the connectors in order to reach your required width. Available in two sizes.

Medium Ramps

Number of channels: 2
Channel width: 90mm
Channel height: 75mm
Weight: 13.5 kg

Large Ramps

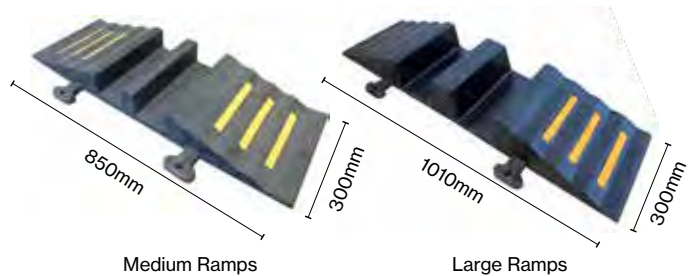

Number of channels: 2
Channel width: 150mm
Channel height: 130mm
Weight: 22 kg

Hoses/pipes drop into Hose Ramp channels.

| CODE | DESCRIPTION | CHANNEL SIZE |
|--------|--------------------------|-------------------|
| 49-HRM | Rubber Hose Ramp - Med | 90(W) x 75(H)mm |
| 49-HRL | Rubber Hose Ramp - Large | 150(W) x 130(H)mm |

Supplied with Dog-Bone connectors.

Rubber Hose Bridge

Can be placed over hoses up to 90mm diameter. Ideal for protecting hoses and cables from vehicle damage and abuse. Also provides a safe passage way for pedestrians when hoses have to cross footpaths. Simply clip each section together with connectors provided to reach your required width. With built-in convenient carry handle.

Number of channels: 2
Channel width: 97mm
Channel height: 90mm
Weight: 19 kg

Hoses/pipes sit protected underneath Rubber Hose Bridges.

| CODE | DESCRIPTION | CHANNEL SIZE |
|--------|--------------------|------------------|
| 49-HBR | Rubber Hose Bridge | 100(W) x 87(H)mm |
