

Modular Raised Speed Tables

Modular Raised Speed Tables

Vanguard's Modular Raised Speed Tables are a modular system which allow you to create raised Zebra Crossings or Courtesy Crossings for pedestrian crossing points. They can also be used alone as a raised speed table for speed calming measures.

Supplied in pre-packed kitsets forming a 6m x 3m table, with additional extension kits available to extend the width of the crossing.

The bolt-down design allows these tables to be trialled and then relocated, or left as a semi-permanent installation. A great alternative to asphalt for situations where you don't want to use permanent materials.

- Anti-slip surfacing for pedestrians
- Supplied with compliant white 'shark teeth' markings on the approach ramps
- Available in Courtesy or Pedestrian Crossing styles
- 6000(W) x 3000(L) x 75(H)mm

Modular pieces join together to build a full width speed table.

1m wide Extension Kits available

CODE	DESCRIPTION	SIZE (mm)
49-PEDC	Courtesy Crossing Set	6000(W) x 3000(L)
49-PEDCX	Courtesy Crossing Extension Kit	1000(W) x 3000(L)
49-PEDZ	Pedestrian Crossing Set	6000(W) x 3000(L)
49-PEDZX	Pedestrian Crossing Extension Kit	1000(W) x 3000(L)

Fasteners are included.
