

Steel Barrier - 910 Triple Rail

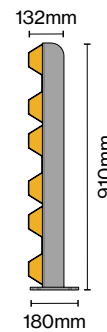

(Shown with optional Floor Mounted Pallet Stopper - see page 37)

Tru-Gard Barrier - 910 Triple

Tru-Gard 910mm high triple rail is a certified safety barrier system used for traffic management and protecting against forklift injury to personnel and damage to buildings and assets. Triple rail offers the strongest protection and the highest strength rating.

- Modular system can be configured to your required site layout
- Post centres of 1.1m ensure that every impact is absorbed by a post
- The 910mm high single rail stops 7T at 7.4km/h
- Compliant with AS/NZS 11701-1 Section 3.8.
