

Mobile Expanding Barriers

Portable Expanding Barriers link together to create custom exclusion zones.

Standard T-leg feet.

Optional braked castors.

Portable Expanding Barrier

Lightweight and portable aluminium expanding barriers are used for closing off areas quickly and creating temporary exclusion zones.

Coupling system allows multiple units to be joined together.

Available in 3.2m and 5m lengths.

Braked castors also available to make the barriers wheelable, and also able to be secured in place.

CODE	DESCRIPTION	SIZE (mm)
49-PAB3-RW	Portable Expanding Barrier - Red/White	3200(Open W) x 950(H)
