

# Mobile Folding Barriers

## Mobile Folding Barrier

Expanding to a full length of 4m, the Plastic Mobile Folding Barrier consists of 900mm high yellow panels, providing a high-visibility solution to quickly block off an area.

This wheeled compact barrier is easy to move, operate and transport. Great for cordoning off ladders, lifts and doorways.

Closed: 270(L) x 580(D) x 1000(H)mm

Open: 4000(L) x 580(D) x 900(H)mm

Dimensions include handles\*

Weight: 16kg

Hi-vis panels alert vehicles and pedestrians to exclusion zones.

Simply fold and wheel away for easy storage.

CODE	DESCRIPTION	SIZE (mm)
49-MB	Mobile Folding Barrier	4000(Open W) x 900(H)

## Safegate Folding Barrier

The Safegate Folding Barrier is one of the easiest and fastest barriers to deploy. Consisting of 4 x 750mm-wide panels clipped together, Safegate's compact and lightweight design makes it ideal for preventing access to areas of wet floor, or cordoning off spills, trip hazards and maintenance areas.

- Simple and fast to set-up and set-down
- Multiple barriers can be easily fastened together using extra clips
- Folds compactly for transportation and convenient storage
- Integral locking clamp aids stability
- Made in UK from 100% recyclable HDPE
- Available in Red and Yellow

Closed Length: 750(L) x 1000(H)mm

Open Length: 3000(L) x 1000(H)mm

Weight: 8kg

Safegate Folding Barriers are lightweight for one-person setup.
