

Interlocking Speed Hump - 75mm high

Interlocking Rubber Speed Hump - 75mm High

Used for areas where vehicles need to slow to crawling speed i.e. Giveaway/Stop intersections and vehicle paths that cross footpaths.

Very abrupt - use only if wanting to bring vehicles to a near stop.

If trucks are crossing on a regular basis we recommend using our heavy duty speed cushion - see page 86 & 87.

- Interlocking modules for increased strength and fast installation
- 500mm-wide modules available in black and yellow
- Reflective cat's eyes to enhance visibility at night
- Anti-skid design; heavy duty recycled rubber
- Can be relocated if required
- 75mm high for maximum impact

Use for blind exits or driveways exiting across footpaths.

CODE	DESCRIPTION	SIZE (mm)
49-SH75	Speed Hump 75mm High Centre Module	500(W) x 400(L) x 75(H)
49-SH75E	Speed Hump 75mm High End Cap	250(W) x 400(L) x 75(H)
49-FB	Fasteners - Bitumen	M10 x 75 C/Screw & Plug
49-CF10	Fasteners - Concrete	M10 x 75 Anka Screw

4 fasteners per module, 2 per end cap

Note: 75mm high speed hump is very aggressive. Call to confirm if it will suit your application.
