

# One-Piece Speed Hump

Ideal for single lane driveways.

## One-Piece Rubber Speed Hump

This speed hump is a one-piece alternative to our modular system, popular in environments such as schools and retirement villages. Available in sections of 1.83m with interlocking end caps. Can also be used for cable protection and liquid bunding.

- Reflective elements to enhance visibility
- Very quick to install
- Can be relocated if required
- Rubber construction conforms to uneven surfaces
- Recessed cable channels on underside
- Interlocking end caps to reduce trip hazard
