

Interlocking Speed Cushion - 75mm high

Speed Cushion - 75mm High

Used to restrict speeds in access routes that are shared by both cars and trucks. Similar profile to common asphalt speed humps. The longer and more abrupt 75mm high profile is best suited for areas that require vehicles to come close to a stop.

- Slow cars and trucks in shared areas
- Convenient interlocking system can be configured to any length
- Can be relocated if required
- Middle sections feature hi-vis yellow panels
- Forklift-passable

Suitable for slowing vehicles in carparks or facilities.

CODE	DESCRIPTION	SIZE (mm)
