

Safe Cover - 1600 x 1200mm.

Suggested Uses.

- Ideal for covering trenches/holes across areas that require pedestrian or wheelchair access
- Safely cover holes and trenches up to 900mm wide

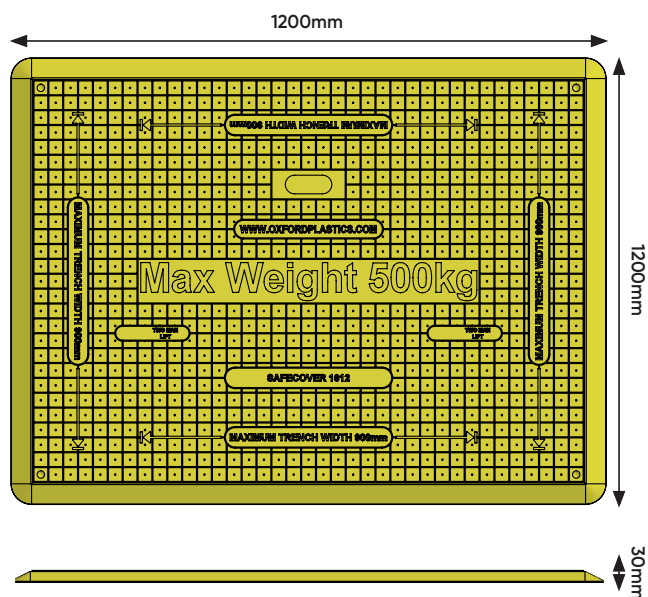

Benefits.

- A great alternative to heavy steel plates with a non-conductive composite construction
- Can be easily installed, transported and stored with only 2 people

Useful Tip.

Designed to be laid loose, but can be fixed in each corner for longer term applications

Code	49-SC1216
Description	Safe Cover - 1600 x 1200mm
Max Hole Span	up to 900mm wide
Max Load	2000kg
Material	Fibreglass Composite
Height	26mm
Width	1200mm
Length	1600mm
Weight	33kg
