

Speed Cushion Pad - 3m.

Suggested Uses.

- Reduce vehicle speeds on roads.

Benefits.

- Does not extend across the entire width of the road, so has minimal impact for buses, emergency vehicles and cyclists.
- Flexible and conforms to road curvature - easier to install compared to asphalt.
- Bolt down design allows for removal or relocation if required - e.g. trialling speed calming measures.

Useful Tip.

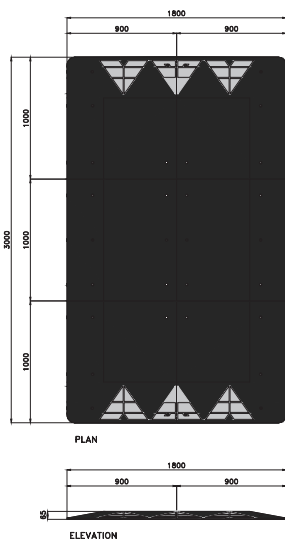

Length equals down the road, width equals across the road.

Specifications.

Code	49-SCP3
Description	Speed Cushion Pad - 3m
Material	Recycled Rubber
Height	65mm
Width	1800mm
Length	3000mm
Fixings	32 fasteners per set.
