

# Speed Cushion Pad - 2m.

## Suggested Uses.

- Reduce vehicle speeds on roads.

## Benefits.

- Does not extend across the entire width of the road, so has minimal impact for buses, emergency vehicles and cyclists.
- Flexible and conforms to road curvature - easier to install compared to asphalt.
- Bolt down design allows for removal or relocation if required - e.g. trialling speed calming measures.

### Useful Tip.

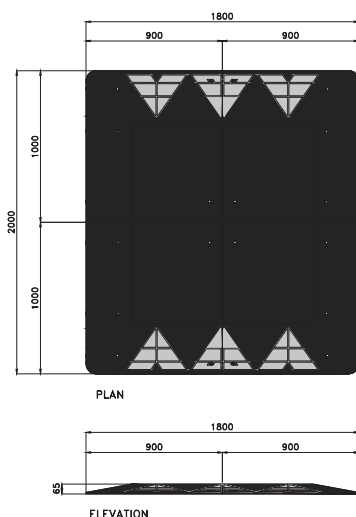

Length equals down the road, width equals across the road.

## Specifications.

Code	49-SCP2
Description	Speed Cushion Pad - 2m
Material	Recycled Rubber
Size	1800mm(W) x 2000mm(L) x 65mm(H)
Fixings	20 x screws per pad
