

Suggested Uses.

- Solid Truck Wheel Stops are a heavy-duty moulded product used in parking spaces for trucks, buses and larger vans at logistic centres and in industrial settings.
- Two are installed next to each other to form a 2.5m long truck stop.

Benefits.

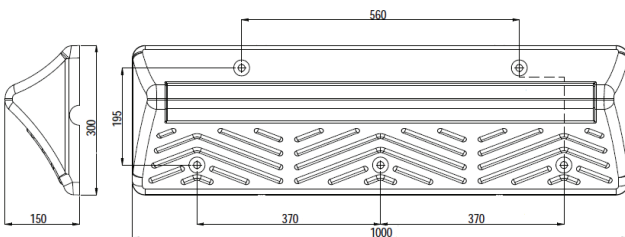

- Ultra tough wheel stop, weighs 24.5kg
- 3m reflective tape for high visibility
- Steel reinforced internal fastening points
- Can be lifted into place without machinery for cost effective and easy installation
- Flexible and will conform to most road surfaces, made from recycled rubber
